## Pearson LCCI Level 2 Certificate in Business Calculations

AWARDED BY THE LONDON CHAMBER OF COMMERCE & INDUSTRY, UK

### Introduction

This qualification is designed to provide a suitable foundation for candidates who wish to progress to LCCI Level 3 Advanced Business Calculations. It also provides a suitable level of skill in business calculation for students who wish to continue in non-quantitative Level 3 LCCI business qualifications, as well as for those intending to perform standard calculations within a business environment and for students with a general interest in this subject.

### London Chamber of Commerce & Industry (LCCI)

LCCI International Qualifications are awarded by Pearson Education Ltd. An accredited Awarding Body providing vocational and professional qualifications around the world. Pearson is accredited by the UK qualifications regulator, the Office of Qualifications and Examinations Regulation (Ofqual), and many regulatory bodies, employers and Ministries of Education around the world actively seek graduates with LCCI International Qualifications.

### Aims

The aims of this syllabus are to enable candidates to develop:

- a broad knowledge and understanding of standard business calculations in relation to simple and compound interest, wages and commission, buying and selling, insurance, foreign currencies, hire purchase, partnerships and averages
- the ability to apply this knowledge and understanding in business situations
- a knowledge and understanding of related terminology
